

### ADVANTAGES

- Unique radial pleat design
- Bonded into case to eliminate air bypass
- Compact
- High mechanical strength
- Rigid, reinforced water resistant cardboard frame
- Large media surface

<b>Application</b>	Suitable for most areas
<b>Frame</b>	Water resistant cardboard
<b>Media</b>	Cotton/Synthetic
<b>Rec. final pressure drop</b>	250 Pa
<b>Max Temperature (°C)</b>	70°C
<b>Relative Humidity max</b>	100%
<b>Installation Options</b>	Universal frame or clip
<b>Comment</b>	Additional information: Different clips available for mounting combinations with different filters.

The 30/30GT® has been setting the standard for T3/G4/MERV 8 panel pre-filters. The combination of the unique media, robust construction and pleating technology makes the Camfil 30/30GT a low pressure drop pre-filter that performs well in all situations
